

BASIC RULES

M. TEMKIN, CALCULUS 104, GROUP 4

Class meetings are on Mondays, Wednesdays and Fridays, 2-3 pm, lecture room A1. My office hours are on the same days at 1-2 pm, room 4N61, so that you can repeat earlier material and warm up before the lecture. My office phone number is 573-1029.

There is one recitation meeting on Tuesdays or Thursdays depending on your section.

There are three midterm and one final exam. The midterm exams will be hold on Friday's class meetings: September 29, October 27 and November 17. There is no make-ups! The final exam will be on Thursday, December 14, 12noon-14pm.

Homework in the course will be graded. Each student receives four intermediate grades in the course: three midterm grades and one TA's grade for homework, quizzes and activity on recitations. The worst intermediate grade will not affect your final grade. The final grade is calculated as follows: final exam contributes 40%, each intermediate grade except the worst one contributes 20%. There also will be few bonus problems on lectures and in homework. The bonus points will be added to the next midterm grade.

The exercises will be assigned on Wednesdays and collected on next Fridays. You are allowed and even encouraged to work in small groups, but each student should write down the solution separately. Identically written (or photocopied) homework may be declined!
