Pre-Class Preparation Assignment   *Name:*

Date of the *lecture*:   Reading assignment (sections):

State two of the most important theorems or formulas from the reading.
Define all of the variables and terms that appear in your statement.
Draw a picture to accompany the theorem or formula.
Finally, write a sentence in plain English summarizing the theorem or formula.

   1.

   2.

On the back of this page, do the warm-up problem. Be ready to discuss it in your groups during class.
