

Syllabus

Math 103-920

Summer 2011

Instructor: Dmytro Yeroshkin

Office: DRL 3C13, (215) 898-2949

E-mail: dmytroy [AT] math.upenn.edu

Lecture: MTWR 10:00-12:10 DRL 4C8

Textbook: Calculus, 6th Ed. James Stewart, Thomson – Brooks/Cole

Course Website: <http://www.math.upenn.edu/~dmytroy/math103-sum11.html>

Office Hours: My office hours will be held every Tuesday and Thursday 2:00-3:00PM. I'll also be available for half an hour following each lecture and by appointment.

Homework: I'll assign a homework to be handed in on every Monday and Wednesday. Each homework will consist of 6 mandatory problems which I'll grade, and a number of suggested problems which will help you learn the material. Each homework will be on the material covered in the previous 2 or 3 lectures. The lowest homework grade will be dropped. You are welcome to work in groups on the homework, but each person must write up their own homework.

Quizzes: We'll have a ten-minute quiz every Monday and Wednesday on the same material as the homework that was handed in. The lowest quiz grade will be dropped.

Exams: We will have two midterms on July 14th and July 28th as well as a final on August 11th. The format will be a mix of multiple-choice and long answer. There will be no make-up exams offered.

Participation: I believe that participation is vital to learning mathematics, as such I strongly encourage all of you to ask questions and provide answers to the questions I ask in class. The grade for participation will depend on how often you answer questions that are asked in class, and will focus on the effort you put into the answers and explanations rather than the correctness of those answers.

Grading: The final grade will be based on:

Midterms	20% each
Final Exam	25%
Homework	15%
Quizzes	15%
Participation	5%

Course Schedule: A schedule for this course will be available on the course website and will be kept up to date.

Calculators: No calculators may be used on exams or quizzes.

Additional Resources: If you ever feel like you need additional help please take a look at the following resources:

Undergraduate Math <http://www.math.upenn.edu/ugrad/Undergrad.html>

Math Help <http://www.math.upenn.edu/ugrad/mathhelp.htm>

ADA Compliance: The Office of Student Disabilities Service (SDS) is part of the Weingarten Learning Resources Center. It provides accommodated exams and assistive technology (along with many other services) to students that self-identify in compliance with Section 504 of the Rehabilitation Act and the Americans with Disabilities Act. Please see their website (http://www.vpul.upenn.edu/lrc/sds/current_students.php) for more information
